

## TENNESSEE FCCLA 2020 CHAPTER PARTICIPATION OPTIONS

To provide assistance to FCCLA chapters, the FCCLA National Board of Directors has chosen to offer two additional membership options for chapters for the 2020-2021 school year. These options will be available to chapters until **Nov. 1, 2020**. These changes are being offered to provide unique assistance during these challenging times but do have a financial impact on the association. It is our sincere hope that this assistance will provide a relief to our members and that our members will continue the legacy of FCCLA membership and participation this year. We are here for each other and will continue to offer services and opportunities for Family and Consumer Sciences students and educators.

### COVID CHAPTER PARTICIPATION PACKAGES

Two options are available through **Nov. 1**. (The National FCCLA Board of Directors will review a *possible* extension if necessary due to continued COVID impact.)

Chapters will be able to opt to select a 2020-21 temporary COVID relief package or the regular membership option. The new temporary options will be available in the portal by **Oct. 1**.
